

HOME SWEET HOME PHOTO EXHIBITION

The **Home Sweet Home** exhibition is the culmination of Northcliffe's 2022 photo competition. We received 89 entries from 32 people. Thirty selected entries will now be on display in The Painted Tree Gallery until 21st July.

Competition Winners

Natasha Bilokur *Relaxing with my best mate at home*
(above)

Wendy Eiby *Bushland Home*

Cerella Nixon *Eggy village*

Judge: Chris Knight (President of Southern Forest Photography Club)

Winners took home photo printing vouchers of total value at \$400. The final winner will be decided by People's Choice, with voting open until 15th July.

Everyone whose entry was chosen for display in the gallery will be able to take home the printed and mounted copy of their entry.

As well as featuring the sunsets, kitchens, paddocks, cubbies, animals and gardens of Northcliffe, the exhibition features a tribute to much loved Northcliffe resident Laurence Richards. We hope you enjoy Home Sweet Home.

Below: CRC Manager Graham Evans thanks those who entered and participated in our event at our opening on 10th June

a little CRC

Tax Lodgment email Scams

Scamwatch is seeing an increase in email phishing scams claiming to be from the ATO. These scams tell people their '2022 tax lodgment' has been received.

Dear Taxpayer,

- Your 2022 lodgment was received on 30 May 2022 at 02.29pm AEST.
- Your receipt number is 7022180418610.

The email asks them to open an attachment to sign a document and complete their 'to do list details'.

Opening the attachment takes you to a fake Microsoft login page designed to steal your login details. Entering your password could give the scammer access your Microsoft account, allowing them to reset your passwords for other accounts like banking and online shopping.

If you get an email like this, don't click on any links or open any attachments. Forward the email to ReportEmailFraud@ato.gov.au and delete it.

Facebook Cloning

Next time you're in the Post Office, if you see yourself at the counter, you may have become a victim of the latest Facebook cloning scam. Using DNA samples from 23andMe,

scammers have been cloning people, using their Facebook login credentials... ..woops, scratch that article. That's fallen back through time from Karri Pigeon edition 4132, to be published in April 2053. Seriously now - Facebook has cloning problems, but they're not yet that bad!

Sometimes on Facebook you receive friend requests from people you are already friends with. Don't accept these requests without finding a way to check they are genuine. Many cloned accounts use the name and picture of a real Facebook user. Scammers regularly browse Facebook and create these copycat accounts. They then go through the Friend list of the real user and send out Friend requests. They can then ask 'friends' for emergency money via Facebook's own payment system or some other system.

If you have been cloned, you may get messages from your Friends letting you know there is something weird about your account. You can also do a Facebook search for your own name at any time. If you have been cloned, report it to Facebook immediately and get your copycats removed. If you can't manage this yourself then seek help at Northcliffe CRC.
