

## ...beanbag cinema update

Thanks to everyone who completed our cinema survey. We've got enough responses to have a pretty good idea what sorts of films Northcliffe likes, the times they prefer to see films and other good info. Survey says... we should definitely be putting on more new release films, more Australian films, and some musicals in the near future.

In the meantime, in partnership with Southern Forest Arts, we have a Halloween special—the kids stop-motion animation by the amazing Tim Burton: *Corpse Bride*.

According to the 'is this movie suitable' website, kids 7 years and older should be fine with *Corpse Bride*, but they will need an adult guardian present. Book early as we expect there will be some demand for our Halloween special.

Please dress up spooky (and get free popcorn), and come expecting about 30 minutes of fun and games prior to the film.

For older film buffs, we will be screening *Good Bye Lenin!* at 7:30pm on Saturday 27th November. This 2003 German tragicomedy film won numerous awards and we can't wait to check it out.

## Has your friend asked for gift cards?

A customer recently came into the CRC to warn of a scam. He had received an email from an old friend asking for money or gift cards. The reason it looked so legitimate was the email address used to be his friend's, but the friend didn't respond to replies. Luckily he recognised it was a strange request and, investigating further, decided it was a scam.

## Immunisation history statement

Immunisation history including COVID-19 vaccination is available online through Medicare. If you don't have a MyGov account we can help you set one up at the Northcliffe CRC. Government services are free at the CRC.

## Businesses in Northcliffe Kicking Goals

A shout out to new businesses in Northcliffe, and to old businesses expanding and innovating:

Penny's *Naughty Noodle Bar* helped warm cold empty bellies throughout Winter, and Linda's *Dinners* and *Northcliffe Hotel* fed us in the evenings. *The Hollow Butt Café* is open again and tasting good. Expanded hardware and supplies range featured at *Northcliffe Farm and Trade* (the post office) is keeping many farmers and weekend warriors out of trouble. *Karri Country Good Food* has new food bins and displays. *The General Store* and *Boorara Mechanical* provide reliability, consistency and value and all Northcliffe tradespersons kick ass!

*Northcliffe's Bean Bag Cinema  
presents...*
